

75<sup>TH</sup> GPCA NATIONAL SPECIALTY

## **GPCA POLICY ON ABUSE OF HOTEL FACILITIES AND PROPERTY**

Due to an incident of misuse, damage and destruction of hotel property at a prior GPCA National Specialty, the Board of Directors instituted the following policy:

“The Board adopted a policy concerning wanton abuse of motel/hotel facilities during GPCA functions. Board will deal with the offending individuals via the imposition of fines, printing of names in the Bulletin, and/or retraction of showing privileges at GPCA sanctioned events.”

We ask your cooperation to help avoid any incidents at this year’s National Specialty by observing the following guidelines:

- Walk your dogs in the designated areas only. Please observe the signs that we have placed throughout the grounds. Keep dogs off the golf course and do not take them into the lobby.
- Please pickup after your dog.
- When you leave your room, please kennel your dogs.
- The hotel has provided a dog washing area with hot and cold water. Please bathe your dogs in this area and not in your room.
- Please use your own towels to dry your dog, and not the hotel’s.
- Accidents happen. Please report accidents to the hotel staff and work with them to clean up and/or repair damages.

It has become very difficult to find major facilities in this country that will accept dogs and dog shows. We are very fortunate to be welcomed by The Lancaster Host Resort. It is our responsibility to do everything that we can to insure their continued positive view of dog oriented events.

Thank you for your cooperation,

Jean Pero & Whitney Coombs  
Co-Chairpersons  
2010 National Specialty & World Conference

A Checklist for items to bring to the National for your Dog

Up to Date Vaccinations * Current Rabies
